

Online School Options:

Georgia Premier Academy currently offers two options for online schooling. Both options are available for grades 6-12. The two options available are Georgia Virtual School and The Ogburn School.

- The Ogburn School is a fully accredited, NCAA approved institution. They provide transcripts and diplomas. Each family works directly with an advisor regarding registrations/enrollments, transcript evaluations, and course progress. The Ogburn School offers 10-month and 5-month enrollment options. Once a student enrolls, they will be able to see and begin working in all required lessons. The student will work at their own pace with guidance from the advisor. Typically, students will need to complete an average of 10 lessons per week. Live sessions are also required. Most students will need to attend 1-2 live sessions per week. The Ogburn School is based in Fernandina Beach, FL so they follow a unique set of graduation requirements.
- Georgia Virtual School is also a fully accredited, NCAA approved institution. However, they do not offer transcripts or diplomas. When a student enrolls with Georgia Virtual School, they are enrolling as a home school student. Transcripts will be created by the parents with assistance from Georgia Premier Academy. Georgia Premier Academy will assist parents when choosing courses by referencing the Georgia Department of Education graduation requirements. Georgia Virtual School offers a course calendar for every course which must be followed. Assignments are due throughout the week for each course. The course does provide a live session, but students are not required to attend. When enrolling with Georgia Virtual School, parents must submit a **Declaration of Intent** to homeschool form located on the Georgia Department of Education website.

A facilitator will be available in a classroom setting each day from 8am-12pm. Each student will be required to attend class during these hours. They will be given a short break around 10am. Additional time with the facilitator can be scheduled for the afternoons if a student needs extra assistance. The facilitator will also oversee course progress and send weekly progress reports to parents if requested. The facility will also provide weekly progress reports to the coaching staff.

Both online options will fully meet the student's educational requirements. However, Georgia Virtual School is more structured whereas The Ogburn School allows students to work at their own pace (with guidance from the advisor and facilitator).

Cost of Each Online School Option:

- Georgia Virtual School charges \$250 per 0.5 credit course and \$500 per 1.0 credit course. For example, if a student takes 9th Literature/Composition A in the fall then they would take 9th Literature/Composition B in the spring. Each of these courses would be \$250 each. Most students take around 5 classes per semester which is an average of \$1250 per semester. Georgia Virtual School does offer state funding, but students must register early in hopes of receiving this funding.
- The Ogburn School does not offer any type of state funding but does offer different payment options which are listed below: Monthly Installment Plan #1: \$450 first payment, with 10 monthly installments of \$150 each = \$1950 Monthly Installment Plan #2: \$250 first payment, with 10 monthly installments of \$170 each = \$1950 Three Payment Option: \$495 / \$650 / \$650 = \$1795: 2nd payment is due in 30 days; 3rd payment is due in 60 days. Two Payment Option: \$845 / \$845 = \$1690; Second payment is due in 30 days. Full Payment paid in advance: \$1495.

Please select/circle an online school choice and sign below:

My child, _____, will enroll in the following online school option:

Georgia Virtual School

Note: I understand that by enrolling my child in Georgia Virtual School, they are enrolled as a home school student. In the state of Georgia, the parent must sign the Declaration of Intent to homeschool form within 30 days of enrollment in a home school program. The form must be submitted by September 1st each year thereafter. This form should be sent to our classroom facilitator, Amber Cates, and a copy should also be kept in the parent records. The parent is responsible for submitting the Declaration of Intent to homeschool form on the Georgia Department of Education website.

OR

The Ogburn School

Please note:

All final transcripts and requested final documents will not be released until the student's account with both the online school and Georgia Premier Academy are paid in full.
